## Meet Our Bands for the Evening from 7.00 pm...

**The Upmo Experience** are a high energy, experimental rock band who focus on having fun while rocking crowds. Having played their mixture of covers and original material at venues including the CAV and Electric Circus in Edinburgh, as well as on STV, its clear these guys are moving upward!

**Sam and Mars** met through Gig Buddies and together play an upbeat set list inspired by rock n roll and 60's Britain

Formed in late 2010, **My Generation** are a collective of talented and dedicated young people who have come together to create a musical fusion in the community. Set up by 'Reeltime Music', the band are focused on increasing their individual experience and skill while developing close links with organisations in the local community.
