

# IMPROVING SKILLS & COMPETENCIES IN SELF-DIRECTED SUPPORT (SKILLS)

Improving the Skills and Competencies in Self-Directed Support (SKILLS) is a 24-month Erasmus+ project that aims to enable the full citizenship of persons with disabilities by improving skills and competencies of different stakeholders in self-directed support.

Funded by the  
Erasmus+ Programme  
of the European Union

2017-1-FI01-KA204-034769

## What SKILLS aims to achieve?

- Improved skills and competences of persons with disabilities, their family members and support staff, so that everyone can fully use the system of self-directed support and its underlying principles
- Inclusion of information and resources about self-directed support systems within the formal adult education field
- Effective cross-sectorial co-operation (service providers, authorities and people with disabilities and their families)

## What outputs will SKILLS Project develop?

- My Freedom of Choice - Accessible Training & Toolkit on Self-Directed Support for users and their families
- Supporting Citizenship - Training & Toolkit for Front-line staff working in the disability services
- Supporting Lifelong Learning Opportunities - Training & Toolkit for Staff working in the field of (formal or informal) Adult Education
- Leading the Way - Strategic planning and lobbying toolkit
- Report - Self-Directed Support in Europe
